## Terms and Conditions

### Climate

Australia is a large country with weather conditions varying considerably from one region to another. You can expect high temperatures in the summer (Dec-Feb) but be prepared for lower temperatures at night and during the Australian winter (Jun-Aug), particularly in Southern Australia where conditions can change quickly. New Zealand's weather is sub-tropical to temperate but be prepared for lower temperatures during winter (Jun-Aug) and we recommend you bring a good wind and/or waterproof jacket year-round. Further weather information can be found at: [www.bom.gov.au](http://www.bom.gov.au) (AUS) [www.metservice.co.nz](http://www.metservice.co.nz) (NZ).

Weather conditions in the Australian summer are very warm and hiking in these conditions requires an intake of 1.5 litres of water per hour. Our guides are trained professionals and it is very important that their advice is adhered to.
